TECHNICAL SKILLS

- Languages: - C, C++, Java, Python, JavaScript (With node.js).
- Knowledge of Web Technologies like HTML, CSS (with Bootstrap, Flexbox, AntDesign and other Styling and Component libraries).
- Worked on Express, Node.js, Angular (2+), Django, MongoDB (with mongoose ODM of node.js), React.js (with hooks).
- Data Structures & Algorithms for Problem Solving Skills. Also practicing in frameworks/libraries like Angular, React and Node.js.
- Knowledge of APIs with Database Connectivity and Integration with frontend.

ACADEMIC BACKGROUND

Education	Score	Year of Passing
Bachelor of Technology in Computer Science and Engineering RAI UNIVERSITY AHMEDABAD	CGPA 7.80	2020
H.S.C (12 th) SEVENTH-DAY ADVENTIST HIGHER SECONDARY SCHOOL MANINAGAR AHMEDABAD (Council for the Indian School Certificate Examination) ISC Board	74%	2016
S.S.C (10 th) SEVENTH-DAY ADVENTIST HIGHER SECONDARY SCHOOL MANINAGAR AHMEDABAD (Council for the Indian School Certificate Examination) ICSE Board	70%	2014

CAREER OBJECTIVES

- Finding the missing opportunity to learn, progress and develop in the field of software development.
- Currently learning single-handedly, but will love to work with team and build Communication and Team Work skills.
- Gain Experience and want to level up in Problem Solving, Strategy Building, Unexpected challenges and many more.

AVOCATION/ HOBBIES

- Gaming (Games like Counter-Strike, Call of Duty Modern Warfare) which helps me in building and enhancing my real-time strategical thinking capabilities.
- Read Programing related blogs like Angular in-dept on medium.com etc.
- Love watching YouTube tech videos and Computer Hardware related Stuffs.

INTERNSHIPS

Bitontree Solutions	<ul style="list-style-type: none">• Duration: 3 Months• Interned as a full stack Developer.• Technologies/Frameworks I have practiced and worked on React.js (with redux), Angular, MongoDB, Node.js, Express.js and many other libraries.• Worked on 3+ live projects.
----------------------------	--

PROJECTS

Project Name	Description	Technologies
Bug Tracking System (Final Year 7 th Semester Minor Project)	Bug Tracking System is a web-based application that is designed to help quality assurance and programmers keep track of reported software bugs in their work. Bugs will be assigned to a person with a bug id, bug code, description, etc. Bug can be submitted to the developer.	Angular (Frontend), Django (Backend) MySQL (Database)
Locationist (Final Year 8 th Semester Major Project)	Locationist is a web application in which user can review, post images or videos of particular tourist/holiday locations. Using Locationist application users can search nearby visiting locations as well as their desired places and can see reviews, posts related to their input places.	Angular (Frontend) Node.js with Express.js (Backend) MongoDB (Database)
Studearn (Bitontree Solutions)	A Web Application featuring 3 users Student, Teacher, Admin. In this Application Teacher can create slots for meeting/appointment and Student can book slots created by teachers based on college or topic. Admin is the higher authority who manages the web Application.	React.js (Frontend) Node.js with Express.js (Backend) MongoDB (Database)
Delphi-OS (Bitontree Solutions)	Delphi-OS is a main stream project management web application mainly used for real time online bot analytical studies in which I worked as a front-end developer.	React.js with Ant-Design and lerna.js
Autom8 (Bitontree Solutions)	Autom8 is a Web application for automating the process of warehouse of different locations and transfer of goods between them.	React.js with Bootstrap MongoDB Node.js
